Crafted for Performance. Designed for Life.

At Door-Stop, we've never believed in compromise. From day one, our sole focus has been composite doors – nothing else. That dedication means every door is crafted using the right blend of materials to deliver exceptional strength, low maintenance, advanced security, weather resistance, and stylish design.

Behind the Door-Stop name is industry-leading technology and thoughtful design, giving you a door that looks great from the outside and performs brilliantly on the inside. With a wide choice of colours, glazing, ironmongery and security options, you can create a door that suits your property perfectly while making a bold, confident statement.

As pioneers in the composite door industry since 2008, we've led the way with innovations such as reglazeable cassettes, colour-matched weather bars and providing Energy Rating certificates before they were required. Our legacy of quality, innovation and customer satisfaction continues today – built on experience, driven by excellence, and focused entirely on creating the best composite doors we can.

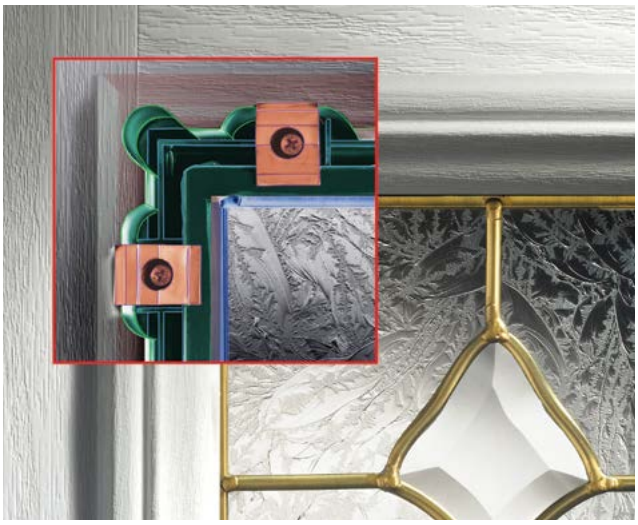

Mid Square, White Internal Colour, Clear Glass

Colour Matched Weather Bars

We believe the entirety of the door should match your chosen colour. Therefore we only offer colour matched weather bars, designed specifically to match your new entrance door.

Unique Reglazeable Cassettes

Reglazeable Cassette; our patented reglazeable cassettes mean the glass can be swapped out or replaced without the need to replace the entire door.

PVC Edgebanded To Complete Your Door

Every sight-line of your door is considered. On the hinge edge of all doors, we apply a grained trim and then countersink the hinges for a perfect, flush finish. All Genuine Door-Stop doors carry an official stamp on the hinge edge near the bottom of the door.

Internal Colour Choices

We understand the importance of matching the interior side of your new door to your colour scheme. That's why we offer doors with a separate interior colour to the exterior.

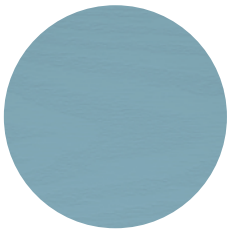

Colour Options

The doors in our collection are available in a diverse range of colours (both sides) to suit the character of your home.
Please note: if you select a wood-grain colour on both sides of your door, this will only be available in certain door styles.

Hinge Options

SFS 2D-C Hinge

The SFS 2D-C Hinge features precise 2D adjustments, including +6mm/-2mm height adjustment and +/-2mm lateral adjustment, guaranteeing perfect alignment along with superior performance and reliability.

Available in a range of finishes, the 2D-C hinge adapts to various design themes.

SFS 2D-F Hinge

The SFS 2D-F Hinge features precise 2D adjustments, including +/-4mm height adjustment and +/-3mm lateral adjustment, guaranteeing perfect alignment.

Available in a range of finishes, the 2D-F hinge has self-lubricating pins which guarantee fluid motion and silent operation without the need for maintenance.

Trojan 3D Adjustable Hinge

The Trojan Adjustable Hinge offers a perfect blend of innovation and quality, ensuring your doorsets remain perfectly aligned for years of trouble-free operation. Designed for easy adjustments, this hinge guarantees a seamless fit every time.

Trojan Athena Hinge

The Trojan Athena Hinge combines strength and elegance, making it ideal for composite doors. Despite its slimline appearance, this hinge offers impressive load-bearing capabilities, perfect for many applications. With full float technology, the Athena hinge facilitates simple and accurate 3D adjustments, ensuring a perfect fit every time.

Locking Options

We know a secure door is important to our customers, and that's why our range of locks, cylinders and handles are tested, certificated and accredited to industry standards. The combination of these locks and a reliably strong structural frame make our doors unrivalled in terms of the peace of mind they offer.

Yale Lockmaster

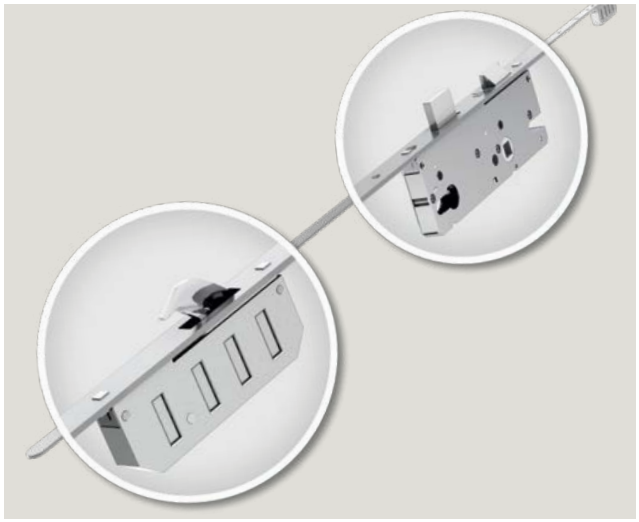

Developed and tested to deliver superior security and ease of use. British made and featuring a combination of hooks and anti-lift bolts for proven and reassuring protection.

Winkhaus AV2

The Winkhaus AV2 Lock offers automatic multi-point locking for composite doors, engaging as soon as the door is closed. With solid anti-pushback hooks and a robust deadbolt, it ensures high security without the need to lift a handle. Available in various finishes, the AV2 lock combines ease of use with superior protection, making it ideal for residential and communal entrances.

Winkhaus Trulock

The Winkhaus Trulock is a multi-point locking system designed for composite doors, providing reliable security and smooth operation. Featuring high-security nickel-plated steel hooks and a robust gearbox, it ensures maximum strength and durability. The Trulock is approved by the Police 'Secured by Design' initiative, offering peace of mind with enhanced protection.

GU Slam Lock

The GU Slam Lock provides automatic multi-point locking for composite doors, securing all locking points as soon as the door is closed. The GU Slam Lock combines convenience with robust protection, making it ideal for residential and commercial applications. Contemporary lock shown.

Enhanced Security

We go beyond mere functionality; we prioritise your safety and peace of mind. Choose from our enhanced security options and experience a new standard of protection for your home.

Secure Guarantee (on Ultion Locks)

In the unlikely event that you're burgled and the intruder gains entry by snapping the Ultion cylinder you'll get a £5000 compensation and the door repaired or replaced. Activate your guarantee together for free at **www.door-stop-doors.co.uk**.

Ultion Sold Secure Diamond Option

The Ultion cylinder has passed all major British standards test for security without the need for cylinder protectors or extra secure door handles. These tests include the highest TS007 standard (3 star) and the extended Sold Secure Diamond test, which is more rigorous and designed by the Master Locksmith Association.

Yale Platinum

Approved to TS007, the Platinum 3 Star cylinder is endorsed by the Police Secured by Design scheme and provides several separate lines of defence - Anti-Snap, Anti-Pick, Anti-Bump, Anti-Screw, Anti-Pull and Anti-Drill - for optimum security.

Avocet

The ABS (Avocet Break Secure) lock is a high-security euro-cylinder used in police and council crime prevention programs. The lock is an easy upgrade from standard euro cylinders and has immediate snap-secure protection to help prevent break ins.

Police Recognised - Secured by Design

Secured by Design

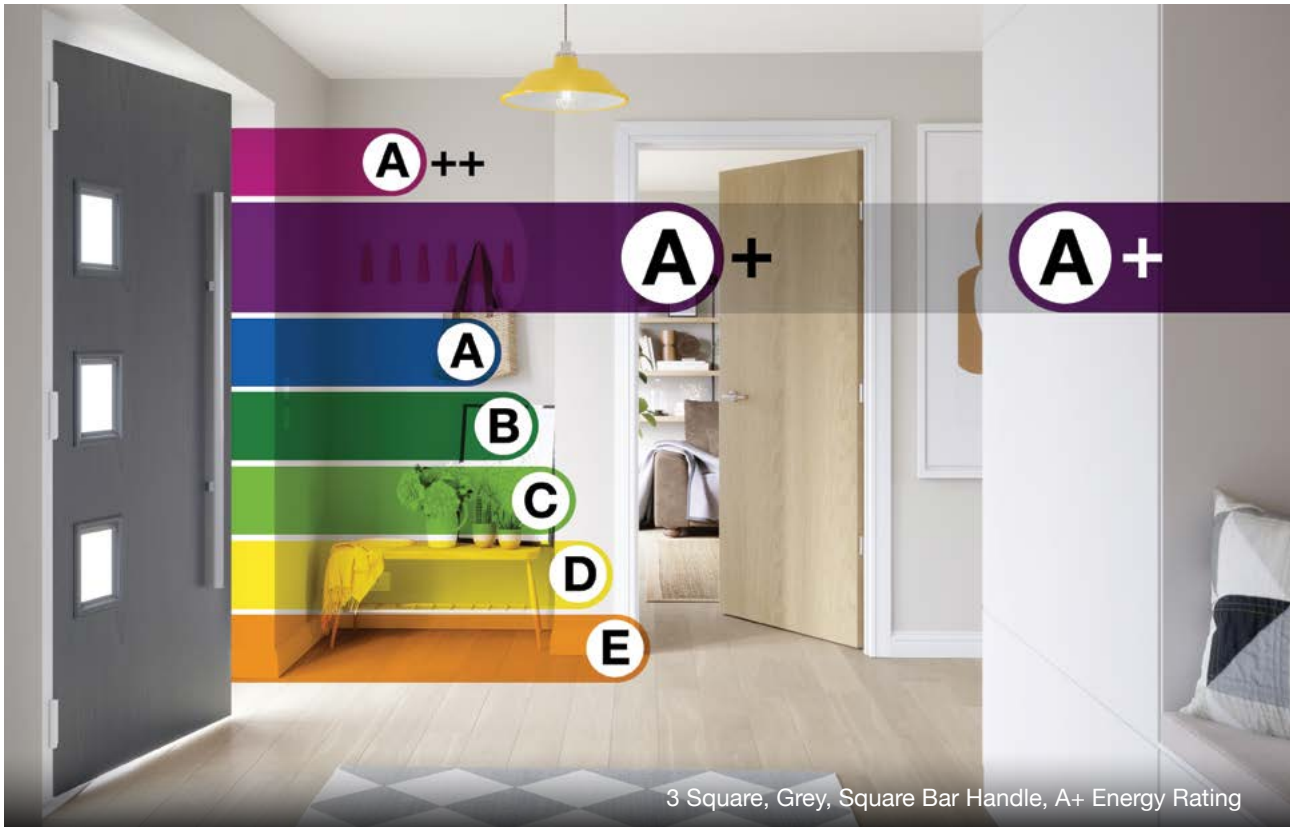

SBD

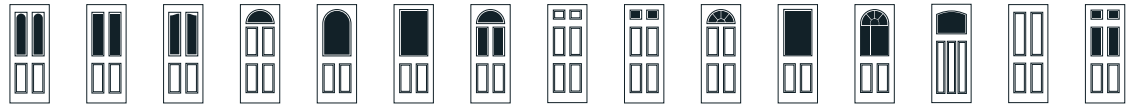

Official Police Security Initiative

If anyone knows about security, it's the Police. Our Secured by Design option meets their national standard for safer homes. It's recognised by many insurance companies. So as well as enjoying an added sense of safety, you could get a discount on your home insurance cover, too.

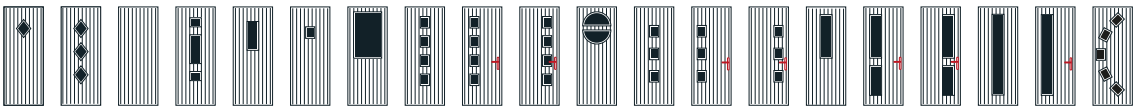

Energy Ratings

Every Door-Stop door is issued with a bespoke energy rating certificate – based on expert data from the Build Research Establishment and accredited by the British Fenestration Ratings Council (BFRC).
